

Bergamo, 28 September 2010

Occasional Seminar Series in Microeconometrics (3)

Organizer: Giovanni Urga

"Microeconometrics using Stata"

4-9 November 2010,

Via Dei Caniana, 2 (Room 15)

Dipartimento
di Scienze
Economiche
"Hyman
P. Minsky"

David M. Drukker

(Director of Econometrics, Stata Corporation)

4 November 2010

Cross-sectional econometrics using Stata and an introduction to Stata programming.

5 November 2010

Time-series econometrics using Stata.

8 November 2010:

Programming econometric methods in Stata/Mata.

9 November 2010:

The econometric analysis of panel data using Stata.

Each day long will consist of a morning session and an afternoon session. The times will vary some over the talks, but we could guess morning sessions will go from 9:00am-12:00pm and the afternoon sessions will go from 1:30-4:30pm. There will be short breaks in each session.
